Summary

Accomplished professional offering great communication and customer service skills. Reliable and dedicated when working alone or as part of team.

I am still in school learning Java, and C++ with a little bit of python as well. I will do whatever task is given to me and attempt to fulfill that task no matter what.

Experience

Halls Chophouse - Lead Support Staff

02/2023 - 08/2023

Summerville, SC

- I was in charge of making sure everyone working those days was on top of their job. Also, as lead support staff I trained almost every single employee within the restaurant. I was often asked to do the important things and took care of very important people including Senator Tim Scott.
 - I received this promotion after three months of working at the establishment, and got this role before people who had been working there several years.
-

Theta Delta Chi

- I am apart of the Fraternity Theta Delta Chi, I was elected as a young leader to go to a international conference held in Iowa to learn all the necessary tools to become an even better leader. I look to be an executive board member and play a huge role in the growth of this fraternity.

Skills
